CONSTRUCTION. IC, ES-IC, and AS-IC models: Heliarc welded, single unit construction shall consist of welded stainless steel base frame of heavy gauge 1" square stainless steel tubing with extra 10 gauge stainless steel caster corner plate reinforcements. SIC model: heavy duty stainless steel support channels with 10 gauge stainless steel caster corner plate reinforcements.

FINISH MATERIALS.

SIC Series: Shall be stainless steel, heliarc welded; ground and polished. Full length, heavy gauge stainless steel angles reinforce corners of body on inside, with high-impact edging on outside corners.

IC Series: Side panels shall be high-pressure, dual-side counter-balanced laminate .75" thick finish. Laminate selections are available. Full length, heavy gauge stainless steel angles reinforce corners of body on inside, with high impact edging on outside corners.

ES-IC Series: Classic raised solid maple wood panels. All wood surfaces finished with polymer coating to deter scratching and gouging. Constructed with reinforced joints for additional strength and durability.

AS-IC Series: Classic raised solid mahogany wood panels. All wood surfaces finished with polymer coating to deter scratching and gouging. Constructed with reinforced joints for additional strength and durability.

CASTERS. Maintenance free polyurethane fire casters, all swivel with brake. Casters shall have a reinforced yoke mounted to 10 gauge caster plate. The caster mounting plate shall be secured to a 10 gauge stainless steel reinforcing stress plate via welded in place stainless steel studs.

INSTALLATION. Unit should not be installed in an area where adverse environmental conditions are present.
