\* FIFO BOTTLE™ is a trademark of FIFO Innovations.

## DESCRIPTION

Nemco brings the convenience of portable hand-sanitizer dispensing to the commercial workplace with a durable, easy-to-use pump that handles high volume and ensures accurate portion control.

The pump's sealed system creates a vacuum draw that dispenses with reliable uniformity and maximizes evacuation of the sanitizer to prevent product waste. The handle features 5 portion settings that consistently release the desired amount with every squeeze—quick and easy.

Parts are manufactured of a tough, BPA-free material and simple design makes disassembly, cleaning, and reassembly a cinch.

## STANDARD FEATURES

- Reliably consistent portion control of hand sanitizer
- Adjustable portion settings—max of 0.5 oz per stroke
- One press gives one portion—quick and easy
- Works with both gel and water-based sanitizers
- Patented design ensures no-drip, no-mess operation
- Fits standard FIFO Bottles™ of 12, 16, 20, 24 and 32 fl ounces (*bottles not included*).
- Designed for portability, but can be stored and used in a vertical hanging position
- Very few components—easy to disassemble and clean
- All components are dishwasher safe
- Space-saving vertical storage stands keep the pumps organized and accessible, while forcing sanitizer toward the nozzle.
