# Chef Base Freezer

*Chef Bases*
*PRO Series*

**Model : PRCBE-48F-N**

**Patented Self-Cleaning Condenser**

This product is equipped with a fine mesh filter to the front of the condenser to catch dust, and a rotating brush that moves up and down daily to remove excess buildup outward and away.

## ≡ FEATURES & BENEFITS ≡

■ *Self-Cleaning Condenser*
The accumulation of dust in the condenser can cause the failure or breakdown of refrigerators. Refrigerators run normally until they reach a certain level of accumulation. At some point, when they are over the limit, their performance drops quickly resulting in damage to, or disposal of the stored products inside. The Self-Cleaning Condenser device keeps the condenser clean and prevents system failure by automatically brushing daily.

■ *Hydrocarbon refrigerants (R-290)*
With innovative and eco-friendly technology, Turbo Air brings you hydrocarbon refrigerators designed to meet DOE's Energy Conservation Standards in 2017 and to use EPA's SNAP Program approved HC refrigerants. Hydrocarbon refrigerants do not deplete the ozone layer and have very low contribution to global warming (ODP-0, GWP-3).

■ *Digital temperature display on front panel*

■ *Strong body and durable construction*
Built with heavy duty **16 ga**. stainless steel, Chef Base top is manufactured of one-piece reinforced stainless steel to ensure durability.
