

COLORED ADVANCE® CONTAINERS

Color-Code Your Operations for Improved Safety and Efficiency

Assign special container colors for ingredients that need to be kept separate, such as allergens or strong aromatics.

Smart Product Design

- Containers and matching lids in blue, orange, purple, and yellow reduce the potential for allergen cross-contact and are instantly recognizable to improve speed of service
- BPA-free Eastman Tritan™ copolyester is scratch-, shatter-, and chemical-resistant over the life of the container
- Built-in, dripless spout improves pourability for reduced mess and waste
- Each container comes with our one-piece Advance lid and is available in 48-ounce/1,4 Liter and 32-ounce/0,9 Liter capacities (see back for compatibility)

Additional Color Options:

Blue

Orange

Yellow
