Symbols glossary

| | | | |
|--|--|---|--|
|  | The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether. |  | LED display: to show programmes, functions and options selected and the time to the end of the cycle. |
|  | Economical mode: Analyzes fridge functioning during the activation and optimizes the operating cycle in order to reduce power consumption. |  | Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge. |
|  | Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage. |  | Power saving mode: The power saving mode allows you to disable the refrigerator and keep the freezer working. |
|  | LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance. |  | No Frost: The No Frost and Frost free systems prevent ice from forming so that no defrosting is required. |
