

SilverShine™ CDM5k - Cutlery Dryer

Efficient Cutlery Dryer for Every Venue

Product Description

The SilverShine™ CDM 5K effortlessly sanitizes, dries, and polishes up to 5,000 pieces of cutlery per hour, delivering sparkling results every time. Ideal for high-volume kitchens in restaurants, banquet halls, hotels, and caterers, this durable stainless steel machine combines efficiency and reliability with a sleek design and simple one-button operation.

*Flawless Flatware
Every Time*

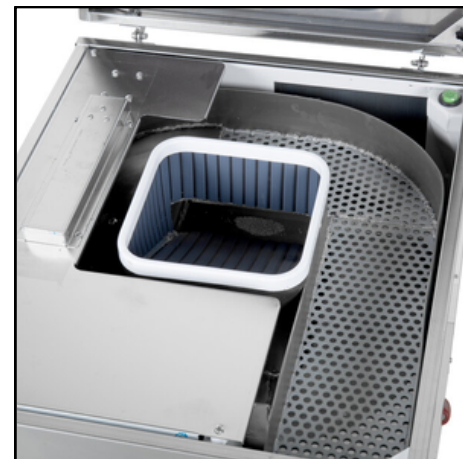

Key Features

- High-Volume Capacity: Dries and polishes up to 5,000 pieces per hour, including spoons, forks, knives, and servingware.
- Advanced Sanitation: Integrated UV-C germicidal lamp eradicates bacteria and viruses for improved food safety.
- Effortless Operation: Simple one-button control with a safety shut-off feature ensures ease of use.
- Durable Design: Fully stainless steel construction ensures longevity, even in demanding environments.
- Mobility: Equipped with four heavy-duty castors (two locking) for easy transport.

Performance Features

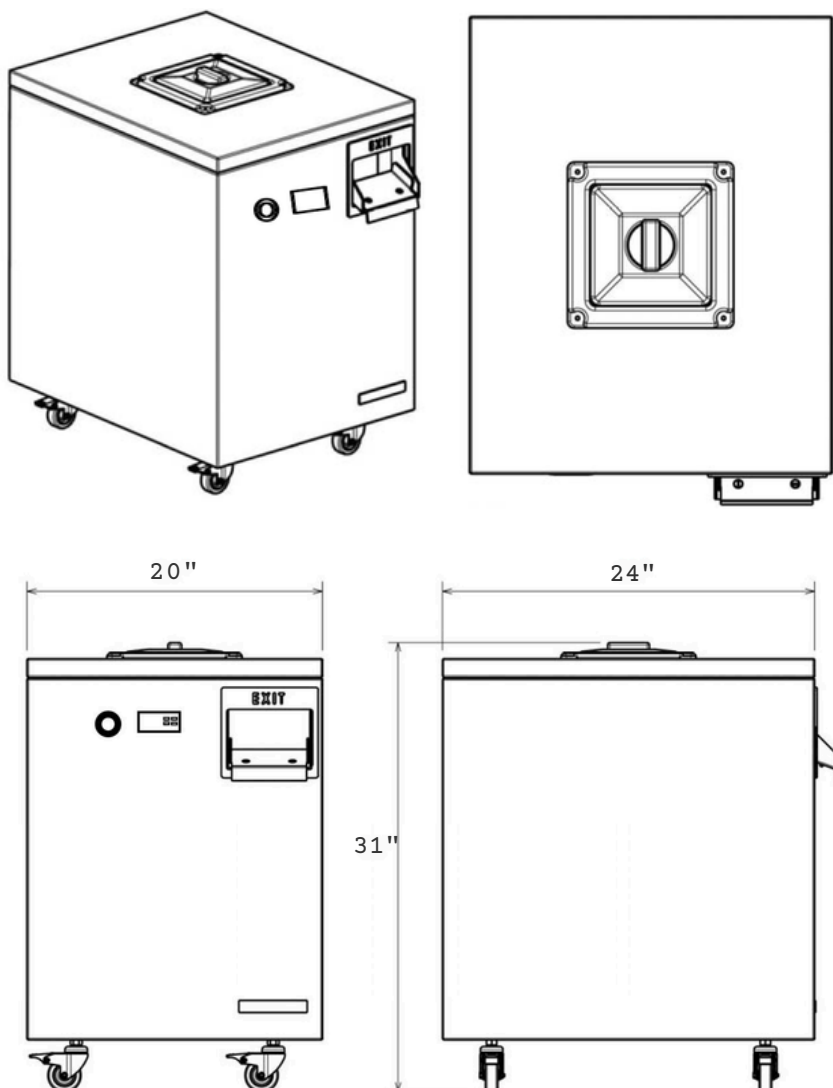

- High-Temperature Operation:
 - 338°F maximum temperature for superior sanitization.
 - 150°F - 170°F consistent operating range for the NAUTILUS tub.
- UV-C Germicidal Lamp:
 - Lamp output of 253.7nm effectively eliminates harmful bacteria.
- Vegetable Granulate:
 - Long-lasting, up to 400 hours of use per batch.
- Quiet and Vibration-Free: Operates smoothly without excessive noise.

SilverShine™ CDM5k - Cutlery Dryer

Efficient Cutlery Dryer for Every Venue
