Straight Rye Whiskey

2024 Single Barrel / Vertical Series Rye—8 Year

The Single Barrel program is an extension of Pinhook's one-of-a-kind Vertical Series, which follows a group of barrels as they age over the course of nine years in an exploration of the true impact of age on a whiskey. With only 19 rye single barrels each year, this extremely limited program gives accounts an opportunity to claim a unique version of a premiere Pinhook product, exclusively for them.

Each barrel is chosen for its singularly compelling flavor profile, then bottled unfiltered at cask strength to highlight the attributes that made it stand out from the crowd. The Single Barrel program is a pure expression of Pinhook's commitment to getting the best from every barrel, rather than replicating established flavor profiles.
