# Pom-Pom Chick Stamping

Suitable For 3+ Years

Let's  
CREATE

Create adorable, fluffy little chicks using pom-poms and paint! This hands-on craft is perfect for little ones to explore textures, colours, and springtime fun.

### **You will need:**

- Yellow pom-poms (small to medium size)
- Yellow paint
- White paper or card
- Googly eyes
- Orange paper (for beaks and feet)
- Glue
- Black felt tip or crayon
- Paper plate or paint tray

## **Let's get started!**

### **1. Dip & Dab**

Pour a little yellow paint onto a plate. Take a pom-pom and dip it into the paint. Stamp it gently onto the paper to make fluffy chick shapes. Repeat to make as many chicks as you like!

### **2. Add Googly Eyes**

Once the paint is dry, stick on googly eyes to bring your chick to life. Use two per chick, or mix it up with one giant eye for some silliness!

### **3. Cut & Stick**

Cut out small triangle beaks and little chick feet from orange paper. Glue them onto each pom-pom print. You could also draw them on if you prefer.

### **4. Draw the Details**

Use a black felt tip or crayon to add legs, wings, or even little speech bubbles. ("Cheep cheep!" is always a winner.)

### **5. Show Off Your Spring Flock!**

Hang your chick masterpiece on the fridge or pin it up to create a sunny Easter display.
